

# Baby Blue 3

*A breakthrough in filter bag leak detection technology!*

## The Revolutionary Baby Blue 3

This powerful and compact Blue LED light was designed to help maintenance personnel quickly find leaks in any dust collection unit. Cordless and rechargeable, the **Baby Blue 3 (BB-3)** makes filter bag inspection quick and easy.

### Highlights:

- Cordless and rechargeable, no need for extension cords.
- Durable anodized aluminum body
- The 2200mAh battery provides up to 3 hours of use
- The Blue LED offers a 'bulb-life' of up to 100 000 hours.
- Power equivalent to larger 150 W models.
- The Baby Blue 3 kit includes:
  - Durable case for easy transport and storage
  - LED Enhancing glasses (ANSI rated)
  - 2200 mAh rechargeable battery
  - AC and DC Quick Chargers
  - A choice of chargers: 120V (Type A), 230V (Type C), or 240V (Type I)
